

Report on Data Mining Expert Lecture

Objective:

The main objective of this technical event is to check the general technical knowledge of the students. Students will learn to apply their theoretical knowledge for solving the various real-life problems faced in their subjects. This workshop will help the students to equip the essential skills they require in the future.

Key Points:

- Fundamentals of Big Data.
- Use of various Data mining techniques.
- Industrial aspects of Data Mining.

Subjects Covered:

- Fundamentals of Big Data.
- Concept of various data mining algorithms.
- Implementation of these algorithms

Experts:

Chintan Patel
Software Developer,
eInfoship

Co-ordinator:

Prof. Amanat Ansari
(Assistant Professor)

SRPEC, UNJHA.

Feedback Analysis	
Relevance of the content with the title.	4.18
Presentation of the content.	4.45
Teaching methodology.	4.28
Doubt clearance	4.38
Relevance of course content to my work	4.38
Course relevance to current trends	4.40
Illustrations, examples and practice sessions	4.40
Illustrations, examples and practice sessions	4.13
Facilitator's knowledge of the subject matter	4.23
Facilitator's knowledge of the subject matter	4.18
Facilitators preparedness and presentation skills	4.28
The overall delivery and content	4.30
How this workshop met my expectations	4.30

Participants:

Total **40 students** have participated in the workshop where they had learned about the basic Data mining techniques. Also they had learned the industrial aspect of Data mining in today's world and the various technique used in data mining.
