

Diploma & Degree Engineering Students

16th to 19th March 2019

SMT. S. R. PATEL ENGINEERING COLLEGE

Three Days Workshop Report

Three Days Workshop with Contest of Capacity Enhancement of Engineering, Science & Soft Skills

Sponsored by SSIP Cell

Objectives:

The main objective of this Three Days Workshop with Contest on “Capacity Enhancement of Engineering, Science & Soft Skills” is to create awareness among the First semester students about their future requirements of the 21st Century Skill Development. Because the present era is the “Era of knowledge”. To empower the aspiring

students with present days basic requirements like their English and Personality Development in Engineering & Soft skills. The idea of organizing this program is to inculcate the fundamentals, key concepts of basic Engineering, Personality Development of new entrants.

Content

- Practical Fundamental Science Concepts
- Basic Electronics

Concepts

- Arduino Microcontroller
- Sensor based Electronic Circuit
- IOT based Engineering Concepts
- Web Designing using Wordpress
- Personality Development

Workshop Coordinator

Prof. V. M. Modi

H & S Department

Prof. J R Patel

E & C Department

Workshop Participants:

Workshop was organized for all 2nd Semester Engineering students and other institute students. There were total 65 students Participated in these three days workshop.
