

Computer Department

3rd to 5th February
2020

SMT.S.R.PATELENGINEERINGCOLLEGE

Report on 3-Day Workshop on "Java Fundamentals"

Objective:

The main objective of this workshop is to provide knowledge of various concept of java to develop different types of applications.

Topics Cover:

1. Introduction to Java Programming and application

2. Implements Various Application Oriented Concept
3. Overview of Collection and GUI
4. Implement Socket Programming
5. Implement Database Connectivity
6. Multithreading and Exception Handling

Expert

1. Dr. Manish M. Patel
HOD,
Department of Computer Engineering,
Smt. S. R. Patel Engineering College
2. Mr. Mukesh Soni
Assistant Professor
Department of Computer Engineering,
Smt. S. R. Patel Engineering Collage.

Glimpse of Workshop

Workshop Participants:

Total **13** students were participated in this workshop. During this workshop students learned various concept of Java Programming and did hands-on session for implemented all concept. They came to know about detail how to build real time application using Java Programming and how different syntax were used in application development .
