Project Title

SOCIAL NETWORKING SYSTEM

Abstract:

This document is meant for developing all features and procedure that were followed while developing the system. This document specially mentions the details of the project how it was developed, the primary requirement, as well as various features and functionalities of the project and the procedures following in achieving this objectives. Social Networking System is very essential in any organization to monitor Users and manage healthy relationship with all its users' friends. Our System is designed to connecting with friends easily. Its registration, login, and accessing technique is very easy, and any one can make new account with out anyone's help.

FriendsArena is designed regarding this new generation like a post, comments in post, delete comment , create/delete personal album and personal message facility is available in FriendsArena .We always try to improve our systems facility and makes it as simple as we can.
