

Department : **Computer**

Year : **2012-2013**

Group No: **5**

Guided By

**MRS. NISHA PATEL**

**SMT. S. R. PATEL ENGINEERING COLLEGE, UNJHA**

**Project Title**

**SHARE BROKER**

**Abstract:**

Share Broker System project is implemented in .net framework using Microsoft SQL server as Backend application. Main aim of this project is to develop a online application for company to atomize work procedure using this system agent and user can know detail about present policies,schemes,policy specification,terms and condition on policy,policy registration by the customer. Agent commission is based upon customer policy registration and target agent achieves for every month or year.

In existing system manual procedure is followed where data which is a time tacking process and required more man power and calculating commission dues..etc are done manually.

In present system there is no need of human interference calculating any details. Total work is done using system which will save time and less paper work.
