Year : 2015-16

Group No: 4

Guided By

**MS. DHARA  
JANSARI**

## **SMT. S. R. PATEL ENGINEERING COLLEGE, UNJHA**

**Project Title**

**SLIDE BASE LEARNING SYSTEM**

### **Abstract:**

In past when we go anywhere for lecture or presentation we take pen drive and any other material but using this type of system we cannot take a pen drive and any other material, only provide internet connection we can easily connect with our account and material or presentation.

Slide base learning system (SBLs) is provided which is used by authors, teachers, students and education administrators for the development of courses, the teaching of courses, the studying of courses and the administration of information and data relevant to the courses.

The slide base learning system provides an efficient authoring, teaching and learning environment wherein a database of questions and answers are linked to a textbook to facilitate the learning and evaluation process of students studying a textbook.

Slide base learning system is new generation tool and easily available anywhere for student and lecturer with the connection of internet. Student have to chance to study in their own time
