Project Title
PROJECT MONITORING SYSTEM- SRPEC

Abstract:
To solve various innovative technical problems final year bachelor engineering students proposed various solution. But all the content related to these problems and the solutions of these problems are submitted by students manually. By this project we are introducing a portal which can ease the work of submitting the data with the help of portal named "Project Monitoring System - SRPEC".
This portal has several features like:
Group management
Guide management
Project content monitoring
Notify students for deadlines
Completion certificate generation

Prepared By:

Sr. No.	Student Name	Enrollment No
1	UMANG VYAS	150783107004
2	AVANI DESAI	150783107001
